## EXPERIENCE

---

### Front-End Developer, Upwork - Freelance

Jul 2022 - Present

- Maintained a track record of consistent 5-star feedback and long-term client collaborations.
- Built performant SPAs optimized for SEO and user experience using Nuxt 3 and Vite.
- Crafted modular, reusable UI components using Tailwind CSS and Vue Composition API.
- Integrated GraphQL and RESTful APIs to enable real-time and asynchronous data handling.
- Provided ongoing support and enhancements post-delivery, ensuring client satisfaction.

### Front-End Developer, OrderSpark LLC

Jul 2023 - Jul 2024

- Participated in a design phase with UI/UX teams, facilitating a 30% improvement in design feasibility.
- Integrated various plugins such as Google Analytics, Stripe, OAuth, etc.
- Worked with Vuex for efficient state management, reducing application crashes by 20%.
- Integrated Apollo GraphQL to streamline data fetching, reduce network requests, and improve state management, enhancing application performance and maintainability.

### Front-End Developer, Direlli LLC

Sep 2022 - May 2023

- Collaborated on high-impact client projects, delivering pixel-perfect UIs aligned with modern UX standards.
- Implemented component-based architecture using Vue 3 + TypeScript, increasing code reusability by 40%.
- Integrated Apollo GraphQL to streamline data fetching logic and reduce load times.
- Led front-end development for a key e-commerce platform, enhancing performance and user satisfaction.

### Front-End Developer, SharpAnt LLC

Dec 2021 - Jul 2022

- Mentored a team of 2 junior developers, which resulted in a 50% faster onboarding time and higher retention.
- Integrated RESTful APIs to enhance front-end functionality, resulting in a smoother user experience.

### Front-End Developer, Habr - Freelance

Jun 2020 - Nov 2021

- Built and maintained client-side applications using Vue.js and Nuxt.js.
- Delivered clean, responsive UI solutions and collaborated with clients to refine requirements and implement feedback effectively.
